

Flyer for families, friends, school

This simple flyer is designed for handing out through your existing networks.

- Members of your Group may have younger siblings.
- Members of your Group will have friends and neighbours with younger children.
- And some parents are well connected with local schools and can ask for permission to put this in the school newsletter or hand out copies to all Prep students.

The files are set up so you can edit the information yourself, then take them to your local printer or Officeworks to print them off. The document is set up to A4 size.

There are two versions, one in Adobe Acrobat and one in Word. To edit the text in the Acrobat version, you will need the full version of Adobe Acrobat, not just Acrobat Reader.

If you don't have access to Adobe Acrobat, you can use the Word version.

Keep it short and simple.
